

Detailed Inventory																	
PWS Name: South Cheyenne Water and Sewer District																	
PWSID: WY5600239																	
Date Last Updated: 10/15/2024																	
Purpose of this worksheet: To provide a customizable format water systems can use to track materials for each service line in their distribution system.																	
General Instructions: Each row in this worksheet represents one service line connecting the water main to the customer's plumbing. The worksheet includes required and recommended elements; the columns with the aqua shading are required by the LCRR. Systems can customize by adding or deleting columns. Important notes for each column are in Row 12; also see the Template Instructions worksheet for detailed instructions. Note that users can freeze panes to enable them to see the headings and notes when entering data. The worksheet includes examples in rows 13 - 20 and is formatted for approximately 10,000 entries.																	

Location Information			System-Owned Portion								Customer-Owned Portion								Entire Service Line Material Classification	Other Potential Sources of Lead
Unique Service Line ID	Location Identifier Street Address	System-Owned Portion Service Line Material Classification	If Non-Lead in Column G, Was Material Ever Previously Lead?	Service Line Installation Date	Service Line Size	Basis of Material Classification	Was the Service Line Material Field Verified?	If "Yes" Service Line Material Was Field Verified:		Customer-Owned Portion Service Line Material Classification	Service Line Installation Date	Service Line Size	Basis of Material Classification	Was the Service Line Material Field Verified?	If "Yes" Service Line Material Was Field Verified:					Is there a Lead Connector?
								Describe the Field Verification	Enter the Date of Field Verification											
1	303 CHANCE STREET	Non-Lead - Copper	No	2023		Installation date after lead ban	No			Non-Lead - Copper	2023		Installation date after lead ban	No					Non-Lead	No
